INDEX OF VOLUME 28, 1990

NUMBER 1, JANUARY—FEBRUARY 1990

Toxicological Risk Assessment Distortions: Part I, by Jay H. Lehr, pp. 2-8.

Observations of Delayed Gravity Response in Partially Penetrating Wells, by P. Mock & J. Merz, pp. 11-16.

Extraction of TCE-Contaminated Ground Water by Subsurface Drains and a Pumping Well, by D. Meiri, M. Ghiasi, R. J. Patterson, N. Ramanujam & M. P. Tyson, pp. 17-24.

A Laboratory and Numerical Investigation of Solute Transport in Discontinuous Fracture Systems, by J. W. Robinson & J. E. Gale, pp. 25-36.

Simulated Effects of Quarry Dewatering Near a Municipal Well Field, by S. M. Eberts & E. S. Bair, pp. 37-47.

Volume Estimation of Light Nonaqueous Phase Liquids in Porous Media, by A. M. Farr, R. J. Houghtalen & D. B. McWhorter, pp. 48-56.

Estimation of Free Hydrocarbon Volume from Fluid Levels in Monitoring Wells, by R. J. Lenhard & J. C. Parker, pp. 57-67.

Well-Purging Criteria for Sampling Purgeable Organic Compounds, by J. Gibs & T. E. Imbrigiotta, pp. 68-78.

A Compatible Single-Phase/Two-Phase Numerical Model: 1. Modeling the Transient Salt-Water/Fresh-Water Interface Motion, by E. Ledoux, S. Sauvagnac & A. Rivera, pp. 79-87.

Evaluation of Methods for Determining the Vertical Distribution of Hydraulic Conductivity, by K. Taylor, S. Wheatcraft, J. Hess, J. Hayworth & F. Molz, pp. 88-98.

NUMBER 2, MARCH—APRIL 1990

Toxicological Risk Assessment Distortions: Part II — The Dose Makes the Poison, by Jay H. Lehr, pp. 170-175.

Borehole Siting in Crystalline Basement Areas of Nigeria with a Microprocessor-Controlled Resistivity Traversing System, by A. Olayinka & R. Barker, pp. 178-183.

An Analytical Solution for Steady-State Flow Between Aquifers Through an Open Well, by S. Silliman & D. Higgins, pp. 184-190.

Characterization of Transmissive Fractures by Simple Tracing of In-Well Flow, by A. Michalski & G. M. Klepp, pp. 191-198.

Modeling of Ground-Water Contamination Caused by Organic Solvent Vapors, by C. A. Mendoza & T. A. McAlary, pp. 199-206.

An Integrated Approach to Identifying the Salinity Source Contaminating a Ground-Water Supply, by M. Knuth, J. L. Jackson & D. O. Whittemore, pp. 207-214.

A Compatible Single-Phase/Two-Phase Numerical Model: 2. Application to a Coastal Aquifer in Mexico, by A. Rivera, E. Ledoux & S. Sauvagnac, pp. 215-223.

OASIS: A Graphical Decision Support System for Ground-Water Contaminant Modeling, by C. J. Newell, J. F. Haasbeek & P. B. Bedient, pp. 224-234.

A General Statistical Procedure for Ground-Water Detection Monitoring at Waste Disposal Facilities, by R. D. Gibbons, pp. 235-243.

Hydrocarbon Thickness Fluctuations in Monitoring Wells, by M. W. Kemblowski & C. Y. Chiang, pp. 244-252.

The Chemical Evolution of Ground Water in the Milk River Aquifer, Canada, by M. J. Hendry & F. W. Schwartz, pp. 253-261.

Sampling Radius of a Porous Cup Sampler: Experimental Results, by R. D. Morrison & B. Lowery, pp. 262-267.

NUMBER 3, MAY—JUNE 1990

Toxicological Risk Assessment Distortions: Part III — A Different Look at Environmentalism, by Jay H. Lehr, pp. 330-340.

Investigation by DC Resistivity Methods of a Ground-Water Barrier Beneath the San Bernardino Valley, Southern California, by S. K. Park, D. W. Lambert & T-C. Lee, pp. 344-349.

Aquifer Parameters from a One-Dimensional Steady-Leaky Type Curve, by Louis H. Motz, pp. 350-356.

Estimating the Precision of Ground-Water Elevation Data, by Robert D. Gibbons, pp. 357-360.

A Study of Acid Mine Drainage Using Earth Resistivity Measurements, by A. M. Ebraheem, M. W. Hamburger, E. R. Bayless & N. C. Krothe, pp. 361-368.

Survey of Microbial Populations in Buried-Valley Aquifer Sediments from Northeastern Kansas, by J. L. Sinclair, S. J. Randtke, J. E. Denne, L. R. Hathaway & W. C. Ghiorse, pp. 369-377.

Estimation of Leak Rates from Underground Storage Tanks, by B. S. Levy, P. J. Riordan & R. P. Schreiber, pp. 378-384.

Causes of Soil Salinization: 1. A Basin in Southern Alberta, Canada, by M. J. Hendry & G. D. Buckland, pp. 385-393.

The Role of Pumping Tests in Site Characterization: Some Theoretical Considerations, by James J. Butler, Jr., pp. 394-402.

Ground-Water Contamination by High-Density Immiscible Hydrocarbon Slugs in Gravity-Driven Gravel Aquifers, by M. Y. Corapcioglu & M. A. Hossain, pp. 403-412.

Quantitative Analysis for the Cleanup of Hydrocarbon-Contaminated Soils by In-Situ Soil Venting, by P. C. Johnson, M. W. Kemblowski & J. D. Colthart, pp. 413-429.

Two Approaches to Design of Monitoring Networks, by T. B. Spruill & L. Candela, pp. 430-442.

NUMBER 4, JULY—AUGUST 1990

Ground-Water Protection Policies: Myths and Alternatives, by R. A. Hodge & A. J. Roman, pp. 498-504.

Well Location in Capture Zone Design Using Simulation and Optimization Techniques, by D. P. Ahlfeld & C. S. Sawyer, pp. 507-512.

Source of Ground Water in the Deserts of Northern Chile: Evidence of Deep Circulation of Ground Water from the Andes, by M. Magaritz, R. Aravena, H. Peña, O. Suzuki & A. Grilli, pp. 513-517.

A Geoelectrical Investigation for Ground Water in Crystalline Terrains of Central Bahia, Brazil, by W. E. Medeiros & O.A.L. de Lima, pp. 518-523.

Laboratory Studies of the Flow of Some Organic Solvents and Their Aqueous Solutions Through Bentonite and Kaolin Clays, by A. S. Abdul, T. L. Gibson & D. N. Rai, pp. 524-533.

Natural Bioremediation of Organic Contaminants on Ground Water: Cliffs-Dow Superfund Site, by G. M. Klečka, J. W. Davis, D. R. Gray & S. S. Madsen, pp. 534-543.

Causes of Soil Salinization: 2. A Basin in East-Central Alberta, Canada, by M. J. Hendry, G. W. Chan & D. B. Harker, pp. 544-550.

Elucidating Ground-Water Flow Paths in a Desert Terrane by Geochemical Methods, by S. J. Fritz, H. J. Lopez & M. P. Wilson, pp. 551-558.

Indicators of Chemical Pollution from Septic Systems, by B. J. Alhajjar, G. Chesters & J. M. Harkin, pp. 559-568.

Use of Resistivity Soundings to Determine Landfill Structure, by P. J. Carpenter, R. S. Kaufmann & B. Price, pp. 569-575.

Ground-Surface Delineation of Fractures Over Mined-Out Openings Using Carbon Dioxide Emissions, by F. E. Kirschner, Jr., R. E. Williams & D. R. Ralston, pp. 576-582.

Measurement and Interpretation of Low Levels of Dissolved Oxygen in Ground Water, by A. F. White, M. L. Peterson & R. D. Solbau, pp. 584-590.

A Field Evaluation of In-Situ Biodegradation of Chlorinated Ethenes: Part 1, Methodology and Field Site Characterization, by P. V. Roberts, G. D. Hopkins, D. M. Mackay & L. Semprini, pp. 591-604.

NUMBER 5, SEPTEMBER—OCTOBER 1990

The Scientific Process — Part 1: Do We Understand It? by Jay H. Lehr, pp. 658-663.

A Device for In Situ Determination of Geochemical Transport Parameters, 1. Retardation, by R. W. Gillham, M.J.L. Robin & C. J. Ptacek, pp. 666-672.

The Lognormal Distribution of Radon Concentration in Ground Water, by L. Zikovsky & B. Chah, pp. 673-676.

Use of Tree-Ring Chemistry to Document Historical Ground-Water Contamination Events, by D. A. Vroblesky & T. M. Yanosky, pp. 677-684.

Infiltration of Immiscible Contaminants in the Unsaturated Zone, by D. D. Reible, T. H. Illangasekare, D. V. Doshi & M. E. Malhiet, pp. 685-692.

Production and Carbon Isotopic Composition of Bacterial CO_2 in Deep Coastal Plain Sediments of South Carolina, by P. B. McMahon, D. F. Williams & J. T. Morris, pp. 693-702.

A Hydrogeologic Database for Ground-Water Modeling, by C. J. Newell, L. P. Hopkins & P. B. Bedient, pp. 703-714.

A Field Evaluation of In-Situ Biodegradation of Chlorinated Ethenes: Part 2, Results of Biostimulation and Biotransformation Experiments, by L. Semprini, P. V. Roberts, G. D. Hopkins & P. L. McCarty, pp. 715-727.

pH and Redox Buffering Mechanisms in a Glacial Drift Aquifer Contaminated by Landfill Leachate, by A. E. Kehew & R. N. Passero, pp. 728-737.

Hydrogeological Decision Analysis: 1. A Framework, by R. A. Freeze, J. Massmann, L. Smith, T. Sperling & B. James, pp. 738-766.

NUMBER 6, NOVEMBER—DECEMBER 1990

The Scientific Process, Part II: Can We Learn It? by Jay H. Lehr, pp. 850-855.

A Device for In Situ Determination of Geochemical Transport Parameters, 2. Biochemical Reactions, by R. W. Gillham, R. C. Starr & D. J. Miller, pp. 858-862.

Field Evidence for the Effect of Acetate on Leachate Alkalinity, by J. F. Devlin, pp. 863-867.

Determination of Specific Storage by Measurement of Aquifer Compression Near a Pumping Well, by S. G. Robson & E. R. Banta, pp. 868-874.

The Shallow Weathered Fracture Layer in the Near-Stream Zone, by W. J. Gburek & J. B. Urban, pp. 875-883.

Particle-Tracking Analysis of Flow Paths and Traveltimes from Hypothetical Spill Sites Within the Capture Area of a Wellfield, by E. S. Bair, R. A. Sheets & S. M. Eberts, pp. 884-892.

Evaluation of Aquifer Behavior and Characteristics in the Singrauli Coalfield, Central India, by V. D. Choubey & I. Shankaranarayana, pp. 893-899.

Influence of Aquifer Heterogeneity on Contaminant Transport at the Hanford Site, by E. Poeter & D. R. Gaylord, pp. 900-909.

Column Studies on Methanotrophic Degradation of Trichloroethene and 1,2-Dichloroethane, by N. A. Lanzarone & P. L. McCarty, pp. 910-919.

Selection of Surfactants for the Removal of Petroleum Products from Shallow Sandy Aquifers, by A. S. Abdul, T. L. Gibson & D. N. Rai, pp. 920-926.

Effect of Sensor Error on Interpretation of Long-Term Water-Level Data, by Donald O. Rosenberry, pp. 927-936.

An Analysis Technique for Multilevel and Partially Penetrating Slug Test Data, by M. A. Widdowson, F. J. Molz & J. G. Melville, pp. 937-945.
